

Organizers

Daniel J. Solove

Daniel J. Solove is the John Marshall Harlan Research Professor of Law at the George Washington University Law School. He founded TeachPrivacy, a company providing privacy and data security training. One of the world's leading experts in privacy law, Solove is the author of 10 books and more than 50 articles.

Paul M. Schwartz

Paul Schwartz is a leading international expert on information privacy law. He is the Jefferson E. Peyser Professor at UC Berkeley School of Law and a Director of the Berkeley Center for Law and Technology. Schwartz is also a Special Advisor at Paul Hastings, where he works in the Privacy and Data Security Practice.

Why Are We Holding a Virtual Event?

With many privacy/security events cancelled, we are creating an opportunity for our community to come together. So many participants have already expressed their overwhelming enthusiasm for our virtual event. Please join us!

Our event is a chance to reconnect, to grow business, to speak and share ideas, to meet new people, and to reconnect with clients. We believe that many will be eager to follow our lead and engage and interact virtually

How Can I Network at a Virtual Event?

Event Sessions. Our event sessions will be conducted through Zoom, a platform familiar to many of us. One member of our staff will assist with any technical questions in each session. Recorded sessions will be made available to all conference participants so they can now see every session, even those held concurrently.

Small Group Zoom Meetings. You may join numerous 15-30-minute Zoom meetings on a variety of different topics with 5-10 people. All meetings will have a preselected discussion leader. Some meetings will be open to all participants, others will be accessible by invitation by the discussion leader only.

Virtual Lunch Tables. Join a virtual table in a more informal group conversation with up to 8 people. Each "table" will be a Zoom meeting with up to 8 people.

Virtual Exhibit Booths. Exhibitors will benefit from our virtual expo and receive a Zoom video chat room for conversations and demos. Each exhibitor will be free to use their virtual booth in creative ways – you might be able to win prizes, receive exhibitor gifts in the mail, or see demos.

One-On-One Video Chats. A key part of an event is finding a moment to catch up one-on-one with a friend. We will be asking participants to block time to catch up with at least 5 people via Zoom or Skype using the participant list distributed in advance (subject to opt-out)

Welcome to our Virtual Event

This is the first time we're holding an event of this size virtually. Our event is a chance to reconnect, to grow business, to speak and share ideas, to meet new people, and build our community. We believe that many will be eager to follow our lead and engage and interact virtually. We will be innovative and work hard to try to encourage interactivity and help people connect in small groups and one-to-one discussions.

We are optimistic that we can succeed. So many participants have already expressed their overwhelming enthusiasm for our vision for a virtual event. We have received a tremendously positive response. People are eager to follow our lead and engage in the interactive activities we list above. Our community really wants to come together and do what it takes to make this event successful!

By eliminating travel and lodging expenses, attending the virtual event will be accessible to a much larger audience of seasoned professionals. In addition, we offer ways to earn CLE and CPE credits.

Please join us! We hope that you will engage and interact. We are open to trying new things to make this event the best it can be!

Daniel Solove & Paul Schwartz

Virtual Pre-Conference Day – Wednesday, May 6

10:00 a.m. – 4:30 p.m. EDT **Virtual Event**
